Education

Northern Arizona University
Computer Information Systems (BSBA)
Finance - Portfolio Management (BSBA)
2011 - 2015

Experience

General Motors   Software Developer
June 2015 - Present

Develop and deliver solutions that drive innovation across GM's core business areas. Interface with architects to ensure that designs and quality are meeting requirements. Write code to support GM systems.

Extended Campuses   Web Developer
January 2014 - May 2015

Maintained applications and processes for public web sites, intranet management, expense tracking, and reporting using C#, ASP.NET, and SQL. Developed solutions using relational database design and other object-oriented design methodologies.

Campus Health ITS   Student Worker
January 2012 - January 2014

Performed general IT tasks at the oversight and instruction of a Systems Administrator. Deployed and troubleshot software and workstations for medical professionals.

W.A. Franke   Peer Teaching Assistant
May 2013 - December 2013

Assisted students with introductory concepts of programming and the object-oriented paradigm through hands-on use of .NET technologies.

About

I am an avid programmer who truly believes that code has and will continue to change the world. My goal is to create applications that enable others to succeed and grow.
